Dear Paul,

I am very pleased to offer my unqualified support for your proposal to the Alaska Conservation Foundation.

I am personally very familiar with the high quality of your work. Last year in late October, you spent several days in Anchorage attending portions of the Watersheds 97' Conference at the Egan Center. Despite the four day length of the Conference, you were able to produce a high quality 30 minute video for your weekly show that absolutely captured the essence of the conference.

It is clear that you are a gifted Producer, Director, Writer, and Narrator. And, you have been able to build bridges with the business community as well as the environmental constituency on the Kenai Peninsula without alienating either.

I have also had the opportunity to view some of your other weekly shows, and believe that you are making significant progress in educating Alaskan's state-wide about learning to live responsibly in their own locale, while entertaining them at the same time.

Good job Paul, Keep up the good work!!!!
